## **DETAILED ACTION**

### ***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-8, drawn to a fluidized air bladder, classified in class 5, subclass 652.2.
  - II. Claims 9-21, drawn to a support surface apparatus, classified in class 5, subclass 689.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions II and I are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because it appears that the support surface apparatus would perform equally well with a fluidized bladder or zone having a single diffuser or having diffusers of varying configurations. The subcombination has separate utility such as for use in a support device other than a bed, such as an inflatable seat cushion.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. This application contains claims directed to the following patentably distinct species of the claimed invention:

SPECIES 1	FIGURES 1-8
SPECIES 2	FIGURES 9-11B
SPECIES 3	FIGURE 12
SPECIES 4	FIGURES 13 & 14
SPECIES 5	FIGURES 15-18
SPECIES 6	FIGURES 19 & 20
SPECIES 7	FIGURES 21 & 22
SPECIES 8	FIGURES 23 & 24
SPECIES 9	FIGURES 25-27
SPECIES 10	FIGURES 28-30
SPECIES 11	FIGURES 31 & 32
SPECIES 12	FIGURES 33-35
SPECIES 13	FIGURE 36
SPECIES 14	FIGURES 37 & 38
SPECIES 15	FIGURES 39 & 40
SPECIES 16	FIGURES 41-43
SPECIES 17	FIGURES 44, 49 & 50
SPECIES 18	FIGURES 45-48
SPECIES 19	FIGURES 51 & 52

SPECIES 20	FIGURES 53-59
SPECIES 21	FIGURE 60
SPECIES 22	FIGURE 61.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

5. A telephone call was made to Christine Orich on January 7, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
